### **ABOUT KIM DRACULA**

Kim Dracula has surfaced from the flesh-eating diseases and torrential wildfires of Australia to create turbulent, creative art that mirrors the chaotic world around us. Blowing up in 2020, fans flocked to Dracula as they promoted their over-the-top compositions on social media with low-budget yet impactful homemade videos that showcased long black and purple hair, garish makeup, demonic eyes and a sardonic grin that promises nothing short of chaos and sensory overload. After the success of their output on platforms like TikTok, Dracula’s vision is finally able to come to life with songs like “Make Me Famous.” Dracula recently released their debut album, “A Gradual Decline in Morale,” which already has over 60 million worldwide streams to date.
